Child Breaks His Wrist

Olice Groskopf, the young son of Mr. and Mrs. Jos. Groskpof, who reside near Vineburg, met with a painful accident last Monday.

The little fellow was sitting on the seat of a hay wagon, while his father and one of his older brothers were pitching hay, when the bit of one of the bridles broke, causing the horses to run away. The child clung to the seat for some distance, but was thrown from it when the wagon went down a chuck hole. He put his right hand out to break the fall, but went under him, giving the wrist a bad break.

A physician was immediately called to set the bones, and though very painful the little fellow is standing his injury remarkably well.

Morocco is inhabited almost entirely by Moors. No census have been taken on Tangier, but from an average of the estimates furnished by old European residents there are approximately 65,000 people there.

PROGRESS.

We used to stare at autos so,
When'er they pass us by
We laughed to think that men may go,
And navigate the sky.

They always laugh great things along,
Inventors rec euled;
How would the world advance if men
By shallow min is were ruled?

It seems the progress plan is best,
No time to scoff and scorn;
Get in and help this strenuous age,
And rush great things along.

And soon we'll see the mystic gleam,
Up in the midnight sky,
As sailing in that starry stream;
The aeroplane glides by.

Perhaps the folks on Mars can teach
Us greater things than these,
And then the "Back Wood's" folks can say,
"Will wonders never cease!"

EDNA E. POPPE.

Another Bunco Game

During the past few months there has been considerable hub bub relative to the Emmanuel Sattitarium to be established at Glen Ellen.

F. Harry Williams has been exploiting the affair and pretending to represent a company who was willing to spend money with an elaborate hand and make Dr. O'Donnell's place a paradise. The price to be paid for the prorerty was $75,000 and though to Dr. O'Donnell it seemed a goodly figure, to the blow hard Williams it was insignificant.

Frank A. Sullivan, of Santa Rosa, got a contract for a $30,000 Sanitarium. An abstract concern in Santa Rosa has a bill of $250 which they would like to collect. Another man would like to see $250 he loaned Williams and contractor Armstrong, of Berkeley, received a contract to construct a bridge across the Sonoma Creek for the Sanitarium would also like to see Williams.

It is rumored that Williams also got an advance in coin from Dr. O'Donnell. Apparently the scheme was a hold up one and it is probable that Williams got more money then recorded.

At any rate he posed as a big gun and created quite a sensation while here

Let's say we're buncoed and let it go at that, for we will never find Williams, who by this time may be erecting another Emmanual Sanitarium on some far disant shore.

Another Curio Added

Another curio has been added to the relics of ancient days that were recently donated by Mrs R. J. Snyder to the city of Sonoma.

This new addition is a Filippino's hat sent to F. S. Sprague by his brother F. F. Sprague who is now in Manlia. Mr. Sprague has donated the same to the city. It certainly is an oddity and reminds one of a chopping bowl. It has bamboo lacing on the inside which supports a crown or circle which holds the affair on the head.

This hat is worn mostly by the Igaritto tribe or other tribes inhabiting the mountain region Occasionally one may be seen on a Tolago, the tribe in the lowlands and surrounding Manila. The famed bolo men during the Spanish American war presented themselves before the American trenches 5000 strong wearing these hats and looked more like a field of punkins than a band of warriors.

Gravity Overcome

Robert W. Baker, of Paterson, N. J. has developed a centrifugal motor of interplanetary communication. Mr. Baker says his motor will project any solid body through the air without the aid of propellers or wings. He is backed by capitalists, who have organized in New Jersey the Baker Company, with a capital of $500,000, and applied for a patent.

"Do not be surprised," the inventor said, "if you find me traveling in a few months from New York to Chicago in an hour and a half. I am sure the time will come when with my motor we can take joy rides to Mars. I predict that we will be able to travel at the rate of a million miles a minute. The idea is to get away from gravitation and the heavy atmospheric pressure on the earth."

A dispatch from White Horse, Yukon Territory, says that the Yukon is free from ice and that steamer service between White Horse and Dawson began Monday

Board Gets Busy

The Board of Directors of the Sonoma Valley Chamber of Commerce met in the City Hall on last Friday afternoon and transacted the following business:

The president was authorized to issue a letter of introduction to the various Chambers of Commerce to any member desiring to visit the fair at Seattle.

A motion was made seconded and carried that the Sonoma Valley Bank be the depository of the Chamber.

The secretary was instructed to send notices of the meeting to be held in the City Hall on July 15 to all members and it is a request that all make a special effort to attend as there is business of importance.

Mr. O. R. Wagner was appointed a committee of one to procure cherries to be sent to the State Board of Trade in the Ferry building and placed on exhibit there. In this connection it was requested that the press make public that the Chamber desires fruits, grain, vegetables, etc., which will be sent free of charge and placed on exhibit in the Ferry building properly labeled with the grower's name and place of residence. This is a fine opportunity to help advertise our valley and all growers of any product are urged to bring in their fine products to President Duhring, who will see that they reach their destination safely and without cost.

A set of bylaws were drawn up and discussed and now await the adoption by the Chamber on July 15th.

No further business appearing the board adjourned to the call of the chair.

FRIDAY, JULY 2, 1909.

Towns, cities and countries, when have been bonded liberally for public highways are the ones which have the greatest attraction for home seekers, and as a natural consequence enjoy the real estate valuations greatly in excess of sections even more highly favored by nature. These object lessons are unanswerable arguments in favor of the bonding plan for needed public improvements. Contra Costa County has been slow to take advantage of the wonderful privilages she might enjoy which her location, climate and productiveness hold out to her people. The issuing of bonds for the purpose of building substantial roads will do more within a few years to place the county in the highest class than any other action which could be taken. Fine highways will benefit the interior to a much greater extent than will pay additional factories along the water front, highly desirable though the latter are. Real estate values in every section will increase rapidly from the date of the carrying out of the bond election.—Contra Costa Gazette.

And so it will be with Sonoma. We must make improvements and bond our town for a sewer system. We need one badly and Sonoma cannot expect to grow without one. We have a new City Hall, a thing of beauty and a drawing card for Sonoma but insignificant as compared with a sewer system that will carry away the debris that has been accumulating for years until the soil is saturated with it.

The question now arises whether we shall sit back and wait for some dreaded disease to sweep over us and cause death and sorrow or to take action now and avoid this sickness which is sure to come if things are left in their present condition.

Isn't it better to have the town even $100,000 in debt than to lose those most dear to us?

We are practically free from debt and you can hardly find any town that is not in debt for at least $50,000. That is a small amount to invest to insure the lives of 1200 people and we should take action at once and avoid future sickness and death.

This plan of waits and delays is a thing of the past in this western county and the towns that do things now are most prosperous.

Let's get busy and get this sewer system at the earliest possible moment. It wont cost any more now than later.

Towns Need It

Towns no less than business firms need to advertise. A town may not fail quite so quickly as a private enterprise from lack of advertising, but the death is as certain in the long run. A town needs to have outsiders know its advantages, its actual conditions as to industries, opportunities for business, cost of living etc. Many an excellent town suffers from the fact that its advantages are not widly known, just as many a worthy commodity suffers because it has not been advertised.

The newspapers are undoubtedly one of the greatest means of advertising their town. "By their newspaper men shall know them." is the semi-biblical phrase that applies to towns. The western real estate town can teach the average eastern city many things on the subject of advertisement. There is a case of advertise or die completely, and they prefer to advertise. It is a result that the people are interested and money is invested in the towns.

It is the same old fact that never changes—namely, that advertising is necessary and the more a thing is advertised up to a certain very high limit the greater the net returns will be. Towns are no exception to the general rule.—Ridgway (Pa.) Advocate.

All eastern people recall that now is the time when the "fresh air children" are taken from the crowded cities by the churches and other societies and given a two week's outing. This move has done great good and many a poor fed and clothed child has had the time of his life and returned to the city with rosy cheeks. This would be a good move to take up on this coast and ministers and others should take the matter in hand.

Auto and Bus Collision

An accident that might have been attended with fatalties occured Tuesday afternoon near Glen Ellen. An automobile driven at a high rate of speed met the Mervyn hotel bus containing fourteen passengers on a small culvert. There was a head on collision, the bus and passengeres were tipped from the bridge spanning the stream into the ditch below.

Two women and a man were badly bruised about the head and body. They were Mr. and Mrs. Harris and Mrs. Oldest, all of San Francisco. The ladies were not able to leave their beds on Wednesday, but Mr. Harris was up and about.

Fortunately there were no broken bones from the accident, the ladies suffering from severe bruises and great shocks to their nervous systems.

The number of the auto and the name of the driver are known and he will be arrested. A deputy sheriff left Santa Rosa Thursday to take the man into custody. A warrant has been sworn to before Justice Theo. Wagner at Glen Ellen against the autoist.

LATER.—Miss Pheobe Monahan, Mrs. Fisher of San Francisco and Mrs. Capt. Wilson were slightly injured. Mrs. Wilson was hurt the worst. Her chin and breast was badly skinned and bruised. The auto driver was caught in Santa Rosa.

Throws Self Beneath Train

Monday evening the entire community was shocked to learn that a man had thrown himself beneath the evening Northwestern Pacific passenger train He was Almondo Moschini, who had until recently run the fruit store between Clewe's store and Lewis & Cumming's Lutcher shop.

As the train neared the station he threw himself in front of it when it was within 15 feet of him and was crushed to death. There was a large hole in his back and another in his stomach, and the bones about the chest were ground to splinters, causing instantaneous death.

Undertaker Bates was notified and the remains were taken to his parlors.

No reason is given for the rash act other than that he stated to friends "Whats the use of working like this all the time just for a living."

It is also rumored that he had threatened to kill himself before this and just previous to his rash act had bid several friends goodbye.

Coroner Blackburn come down from Petaluma, Wednesday afternoon and held an inquest, the verdict being "Crushed to death by jumping in front of locomotive with suicidal intent.

Last evening a brother of the deceased arrived from Reno, Nev., and this morning the remains were intered in the Valley cemetery.

Portola Week

The Portola festival, which is to be held in San Francisco from the 19th to the 23rd of October next, will be more magnificent and attractive than either the Madi Gras of New Orleans or the Veiled Prophets of St. Louis The festival is to commemorate the discovery of San Francisco bay by Gasparde Portola the first Spanish Governor of the State of California. Portola set out from San Diego for Monterey, traveling overland by mule. He had sent two boatloads of supplies up the coast and intended meeting the bay of Monterey. By misdirection the port of Monterey was missed and that of San Francisco discovered. This was in 1769.

Harry Davis, young pickpocket, convicted of picking the pocket of a man on a train at the Petaluma depot of a purse containing ninety-one dollars, was Wednesday morning sentenced by Judge Seawell to serve eight years in the State's prison at San Quentin. The Court first sentenced Davis, whose alias is "Jockey Ness," to Folsom prison. The youth begged so hard to be sent to San Quentin that the Court allowed him to go there.

THE STAINLESS FLAG.

You speak of the Stars and the Stripes,
That waves o'e the land of the free;
And you fling it aloft to the breezes
The Banner of liberty.

But can our fair banner still be,
As proud as your proud heart would brag?
Bring reason to aid, gaze and see,
There's a stain on our glorious flag.

There is a stain on our glorious banner,
And our manhood revolts at the sight.
For it saddens the sunlight day
And looms up the star light by night.

And the eye of the lord is upon it!
And the sin of the nation is told,
They are slaves to the bondage of evil;
And they bow to an image of gold.

They worship the Golden image,
Engraven, "In God We Trust,"
And that gold they may have in abundance,
They say, "The unrighteous are just."

They license the demon of liquor,
And vice her red pinions may wave;
Side by side with our glorious banner
In the home of the true and the brave.

But the eye of the Lord is upon us,
Let us trifle no longer or brag,
But join in the work to remove it
The stain from our glorious flag

The forces of evil are crowding,
Our Freedom's brave country today,
Where homes they are tearing asunder,
They are leading young lives astray.

Let us fight for the flag of our country,
And probably some day it will wave,
Our stainless, our purified banner.
O'er the home free and the brave.

—MISS EDNA POPPE
GLEN ELLEN.

Held for Superior Court

Alfredo Galiselli, who was arrested in Santa Rosa Saturday by Chief of Police Fred J. Rushmore and Deputy Sheriff Dan McIntosh for the robbery of the U. S. Bar at the Roma hotel, was held for trial Monday afternoon by Justice J. B. Small, on a charge of burgulary committed at the Eaglenest Saloon at Agua Caliente. In default of $500 bail he was remanded to the custody of the sheriff.

District Attorney C. F. Lee representing the people and H. S Scott took the testimony. J. Garoni, porprietor of the Eaglenest, testified that the defendant came to his place of business one evening, took a drink or two and while standing around played the nickle-in-the slot machine a little and then went out. In the morning the place was found to have been robbed of about $12 and a gold pin having a peculiar nugget for a head.

The nugget was found upon the prisioner when arrested, but he claimed to have purchased it about a month ago of some unknown man. It was also shown that a number of articles stolen from other places which had been entered about the same time were found in possession of the defendant.

Constable Ryan took the prisoner to Santa Rosa on Tuesday evening where he will be held to await trial in the Superior Court.

Everyone Invited

Everybody is envited to be present at the Congregational church on next Sunday evening, upon the occasion of the first public meeting given under the auspices of the newly organized Men's League.

A good program of music and speaking has been prepared and a treat is in store for all who attend.

The principal address will be delivered by Mr. R. L. Thompson the gifted young orator of Santa Rosa, and a solo will be rendered by Mrs Hyde. The league extends a cordial invitation to all the people of the community to be its guests on this occasion.

The Deer Season

Here is an important matter for deer hunters. The open season for deer, according to the Statutes of California for 1909, page 517, opens on August 15, and closes on October 31. Here follows the law:

"Every person who between the 1st day of November and 15th day of August of the following year, hunts, pursues, takes or destroyes or has in his possession, whether taken or killed into the State from any other State, Territory or foreign country, any male deer or any deer meat is guilty of a misdemeanor."

An explosion of a tube in the boiler of the torpedo boat Hull in the bay in Vallejo June 30 brought fatal burns to B. F. King and badly scalded J. M. Grover, E. F. Crawford, John R. Carter and F. N. Parrish. The injured men are in the Marine hospital, where no hope is held out for the recovery of King The vessel had departed for Mare Island, with ten others, some of which were going to Stockton and others to Los Angeles for the Fourth of July. Just what caused the tube to explode is not known. Following the explosion of the fire tube, another blew out and the men in the engine room were badly scalded by the escaping steam before they could get out.

Another Dance

What do you know about that? That what? That dance at the Clemens home, by Tracy and Steckmeyer, June 26 It was one of those good old reminders that you can't forget for about three weeks, and by that time another comes along. We danced until the machine squeaked I did not believe it was possible to make an Edison machine squeak until a certain young lady drew my attention to it. We also had plenty of good things to eat. Ain't that going some? You will hear from us again.

But what worries us most is will our newly married man move to Texas or will his bride think as much of the rest of us poor mortals as she does of him and remain in Shellville. Let us hope so at least. No date has been set yet, but it takes a good cigar to keep this secret o'd boy.

The Committee of the Board of Trustees having the work in charge have been rushing things lately. Water is now piped from the artesian wells owned by the city in four inch pipes along First Street West to Napa Street and then to the fountain in the plaza. Along the main two watering places for the sprinkler have been erected and near the ground a fire pulg has been provided for. There are also six places in the plaza where a hose may be attached for the purpose of watering the lawn. The fountain now throws a fine stream about four feet in the air above the fountain.

Last Tuesday a jolly crowd of Sonoma folks packed some lunch baskets and drove to Popula Rancho. They took advantage of the baths and experienced several real adventures. C. L. Brown, of Santa Rosa, is excited over the fact that a pair of geese have been picking up nuggets of gold. When they were killed three dollars worth of gold was taken from each goose. He intended finding the man from whom he bought and buy the rest of the flock, kill them and if they also found gold he will try to purchase the property. This is a mighty easy way of prospecting.

The bitter and long expected legal battle for the possession of Island No. 2, in the bay some sixteen miles south of Napa has been commenced. Last Tuesday evening Hon. Theodore A. A body was found in the river in New York City yesterday which is supposed to be that of Leon Ling, the supposed slayer of Elsie Sigel. The identification is far from complete. This may be another dodge by the police to locate a man they have been unable to find and close the incident.

ESS AND ACCURACY.

DOCTOR PIERCE'S AIM ALWAYS HAS BEEN to give positive and VALUABLE SERVICE for every dollar received, therefore when he began professional life he sought to

AIM STRAIGHT AND HIT THE MARK,

especially in the treatment of a very large class of cases that were being maltreated by many physicians through ignorance of their real nature.

This necessitated GOING TO THE ROOT OF THINGS in two special senses,—IN CAREFUL, EXHAUSTIVE STUDY to know what was the real cause of the innumerable aches, pains, drains and weaknesses which afflicted women, and AGAIN TO THE ROOTS which Nature had provided so plentifully for the HEALING OF MANKIND.

Thoroughly convinced that alcoholic stimulants and medicines prepared with alcohol did far more harm than good, Dr. Pierce prepared his remedies, extracted their virtues and preserved them without alcohol, then, guided by actual experience, formed combinations by which a minimum of medicine produced the maximum result. This insured his success and gave him the reputation of "the successful specialist," and, quite naturally, the prescription that he thus used most became "HIS FAVORITE," and was the origin of

Dr. Pierce's Favorite Prescription

as now known. In no sense is it a "patent medicine," or even a secret one, but a

REAL PRESCRIPTION OF A REAL DOCTOR,

that had run into great popularity because it cured more than ninety-eight out of every hundred of the cases in which it was correctly used.

One of the important ingredients of this now world-famous "FAVORITE PRESCRIPTION" is

BLUE COHOSH ROOT,

which was in great repute among the American Indians a century ago. The squaws used it for the relief of their special troubles, particularly for the easing of the pains of maternity, calling it "Papoose root." Then there are four other ingredients in this "PRESCRIPTION," namely: Lady's Slipper root, Black Cohosh root, Golden Seal root and Unicorn root.

It Stands Alone not only in respect to its known composition, but also as the only specific, advertised remedy for woman's diseases which absolutely CONTAINS NO ALCOHOL.

It Stands Alone as the one medicine for women, the makers of which take their patients fully into their confidence and tell them exactly what they are taking. This Dr. Pierce can afford to do, because his "FAVORITE PRESCRIPTION" is made of such ingredients and after a working formula that has thousands of cures to its credit, placing its merits above criticism.

1000-page Doctor Book sent free on receipt of 21 one-cent stamps to cover postage only; 31 stamps for cloth-bound copy. Formerly sold for $1.50 to extent of over 500,000 copies. Every family should possess a copy for ready reference in case of sudden illness or accident. It is illustrated with hundreds of wood-cuts and several colored plates. Address Dr. R. V. Pierce, Buffalo, N. Y.

BREVITIES

There is a signifiant reason why the visitors' register in the California building does not have to be chained to its desk as are the registers in the other buildings at the Alaska-Yukon-Pacific Exposition. It is the largest book in the world, so big, in fact, that it would take four sturdy men to run away with it. Many a library contains less page space then this one huge book. The California register weighs 550 pounds or over a quarter of a ton. It is thirty two inches in size and it is twenty-six inches thick. When opened flat the book spreads over seven feet of table space.

A gigantic plan to advertise the Sacramento Valley was adopted by the executive committee of the Sacramento Valley Development Association. Under the plan $250,000 will be spent in exploiting the resources of the valley within the next five years. The proposition is to spend $50,000 each year. The first step toward financing the big advertising campaign will be taken on Saturday July 17th, at a mass meeting of citizens of the Sacramento valley called by the association. Chambers of Commerce, Boards of Trade, Boards of Supervisors, City Trustees and kindred organizations thoroughout the Sacramento valley will be asked to attend.

That Harriman made no mistake in building into Klamath Falls is indicated by the heavy traffic since the line was opened one month ago During the thirty days the new road has been in operation the total receipts from the freight and passenger business originating have amounted to $75,000, the freight receipts alone averaging more than $2000 daily, according to the report of the agent. Kalmath Falls is the distributing center for a large territory, but the receipts so far have been for local business. When the Lakeview shipments begin to come in the receipts will be greatly increased.

John Graham Brooks, in his book entitled "The Social Unrest," has this to say in explanation of why newspapers devote so much of their space to the unpleasant things in life: "In a Commercial age (if you have been taught to read) the thing that pays spreads. The scale on which the social fault finding and restleness could be made to pay good dividenes was not dreamed of by our ancestors. This art is perfected in the modern press. It has been said, "Blessed are the people whose records are dull." Yes, but such records are not commercially profitable. Peace and contentment have no dramatic quality. It pays to sound the tragic, the morbid, the alarming note, because interest and curiosity are stirred. No sign is better than the cry of a newsboy upon the street. He does not call out, "Most excellent thoroughout the community!' 'Not a divorce for the entire month!' 'No accident or scandle since the last edition!' This would be good news, but he knows his customer. He knows the everyday happiness, the common welfare, and the dullness of good behavior do not sell his papers."

The board of managers of the Modoc no State Hospital Lave closed a contract with the Snow Mountain people for 50 horsepower all day current. Besides being used for lighting the electric power will supplant the waterpower which has heretofore been utilized by the institution for driving the machinery and operating the ice plant. This will conserve the water which will give the institution more for irrigating purposes.

Beware of Ointments for Catarrh That Contains Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering through the mucus surfaces. Such articles should never be used except on prescriptions from reputable physicans, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrah Cure, manufactured by F. M. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting promptly upon the blood and mucus surfaces of the system. In buying Hall's Catarrah Cure be sure and get the genuine. It is taken internally and made in Toledo, Ohio, by F. M. Cheney & Co. Testimonials free.

According to a report at the Bremerton Navy Yard, the merchan steamer Zafiro, which was purchased by Admiral Dewey from British owners prior to the battle of Manila, in order to get coal to carry him thorough his engagement, has been sold to a junk dealer for $3000. The Zafiro was in line of battle at Manila as a supply ship, and was later used as a dispatch boat in the Philippines.

Lake View, Oregon, A well defined movement to divide the State and form a new state from the eastern part of Oregon has been started. The lack of interest by the Western part of the State in the welfare of this section is the cause of the movement.

Madame Ida Hancock, the wealthiest woman in Southern California with an income of $1 000 a day from oil wells alone, and whose name has been the synodym for social prestige and open-hearted philanthropy for a quarter of a century, and United States Circuit Judge Erskine Mayo Russ were married at Los Angeles last week.

We are ready for the Fourth—you know we celebrate on the Fifth this year. I wonder why some newspaper writer don't tells what the Fourth means to this nation. I think it would be nice if President Taft would offer $1,000 for the best answer and fullest account of that great day and cut down the salary

of the weather man in San Francisco, as he misses his guess as often as he hits it. Well, sir, I can tell you truly there is no guess work about this shop. Everything is marked in plain figures—and strictly one price to all.
